In addition, we're enhancing our web-based shipping systems to help small and medium-sized enterprises (SMEs) ship seamlessly and grow globally. All these investments ensure the DHL network remains future-ready while continuously elevating the quality of service we deliver to you

GoGreen PLUS

Leader in sustainable aviation

DHL Express GoGreen Plus is a dedicated solution to help businesses reduce the carbon emissions on a book and claim basis from air transports through the use of Sustainable Aviation Fuel (SAF). This is currently supported by three of the industry's largest collaborations with BP, Neste and World Energy.

In contrast to 'offsetting' – where businesses 'neutralize' their emissions through environmental programs – GoGreen Plus is 'insetting'. Insetting's impact is greater because it directly reduces emissions within a company's value chain, resulting in significant reductions in scope 3 emissions. Here is how you can get on board:

- With the **GoGreen Plus Basic model**, a fixed CO2e reduction (insetting) will be achieved on all your air express shipments.
- In **MyDHL+**, you can opt for GoGreen Plus and choose which shipments to invest in with SAF.
- Alternatively, choose a **Customized Offer** for a bespoke insetting plan.

In addition to GoGreen Plus, other sustainability efforts include:

Green product portfolio

Our GoGreen Plus service allows customers shipping TDI to inset their CO2 air emissions by up to **90%**.

Green last-mile and line-haul

Electrify **66%** of last-mile delivery vehicles.

Carbon neutral buildings

Design **100%** of all new buildings to be carbon neutral.

OPTIONAL SERVICES

View charges

DHL Express offers a wide range of optional services – from non-standard deliveries and billing options to sustainable shipping.

Adult Signature
At customer's request, DHL will obtain a delivery signature from an adult at the stipulated address. If, for local legislative reasons, proof of the receiver's age needs to be verified, DHL may need to request presentation of a valid government-issued personal identification document.

Change of Billing
The Change of Billing service applies when a customer requests a change of defined billing information on an already-issued invoice, which is not due to DHL Express' fault and which will result in a reissuing of the invoice and, in case of account change, crediting of the old account and debiting of the new account

Direct Signature
Upon customer's request, DHL will obtain a signature from the receiver or a representative at the delivery address. In case no one is at the delivery address, DHL will reattempt delivery. The receiver is authorized to arrange an alternative delivery time at the same delivery address or to collect the shipment from a DHL owned ServicePoint.

Duty Tax Paid
DHL Express can arrange for the shipper or a third party to be billed for any duties and taxes payable at destination, rather than the receiver of the shipment being billed.

Charges apply whenever duties or other regulatory fees occur, and shipper has requested that those are to be billed outside of the destination country.

Extended Liability
When sending valuable documents such as passports, visa applications or regulatory certificates, the shipper can extend coverage and compensation in case of loss beyond the standard liability limits as described in our Terms and Conditions, Section 6. In the event of full or partial loss to a document shipment, fixed compensation will be paid regardless of the replacement cost of the document.

GoGreen Plus Carbon Reduced
When selected, DHL will reduce (inset) CO2 emissions from air transport through the purchase of Sustainable Aviation Fuel (SAF). Sustainable Aviation Fuel can reduce lifecycle carbon emissions by up to 80% compared to traditional jet fuel. GoGreen-Plus – Carbon reduced service, supports Scope 3 emissions reductions in alignment with the Science Based Target initiative. The process is audited annually by Société Générale de Surveillance (SGS) to ensure compliance to regulation and standards.

This includes data such as declared values, classification of the goods and importer details, based on documentary evidence gathered from or confirmed by the Importer or Exporter.

Preferential Origin
At shipper's request, the preparation or provision of a Certificate of Origin or other similar forms by DHL to certify the goods in a particular export shipment have been produced, manufactured or processed in a particular country allowing preferential rates of duty to be claimed at destination. When exporting from the U.S., this service is available only for goods made in the United States.

CUSTOMS SERVICES

View charges

Regulatory Charges
Fiscal charges raised by Customs authorities to complete the import or export of a shipment. Examples of a regulatory charge may include the express consignment fee that U.S. Customs & Border Protection charges for customs clearance through express consignment carrier facilities.

Single Clearance
Under 19 CFR 128 Express Consignments regulations, non-restricted merchandise based on value and commodity can be cleared on a consolidated manifest for more cost- and time efficient processing. DHL will assess a service charge for the following clearance processing that require individual handling:

- When the importer requests a single formal entry if the shipment is qualified to be cleared informally on the manifest
- If U.S. Customs and Border Protection requires Live Entry
- If the commodity and country of origin require Antidumping/ Countervailing Duties at time of import

Temporary Import/Export
At a customer's request or when the document is missing from the shipment at origin, DHL will prepare an international Customs document, e.g. ATA Carnet, to simplify Customs procedures for the temporary import/export of various goods. These services are typically provided for purposes such as repairs, testing, exhibitions, or similar activities, and are carried out in compliance with customs regulations through the submission of all required documentation and adherence to the relevant clearance procedures. Photographic proof, written details or original receipts are often required to identify the goods. An importer can also import certain classes of goods into the U.S. duty-free by posting a bond, according to 19 CFR Part 10. The importer must complete and sign the DHL Temporary Importation under Bond (TIB) contract and processing procedures prior to preparing a TIB entry. A service charge will be assessed for any Temporary Import/Export services.

Under Bond Guarantee
A single-transaction bond is used in lieu of a continuous bond, in the event a customer is not bonded. A service charge will be assessed (minimum applies).

DUTY BILLING SERVICES

Duty Tax Paid
At Customer's request, DHL clears the shipment at destination and arranges for the applicable import duties, taxes and regulatory charges to be invoiced to a specified DHL account at origin or third country, rather than the receiver of the shipment being billed at destination. In addition to billing the specified DHL account for such duties, taxes or regulatory charges, DHL assesses on the duty tax payer an extra charge based on a flat rate or a percentage of the fiscal charges that were paid.

Duty Tax Processing - Account Holder
DHL will accelerate the customs clearance initiating the payment process of duty and tax charges relating to a shipment. The receiver is invoiced for the duty and tax amount, allowing payment to be deferred until a mutually agreed date.

Duty Tax Processing - Non - Account Holder
Applies when DHL processes import duties, taxes, or other regulatory charges on behalf of customers who do not hold a DHL account number.

The DHL Customs Services listings are available at mydhl.express.dhl/us/en/ship/customs-services.html and will be updated or supplemented from time to time. Customs Services will be billed in accordance with the DHL list of Optional Services, Surcharges & Customs Services in effect at the time the shipment is tendered. PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

1 Shipment weight

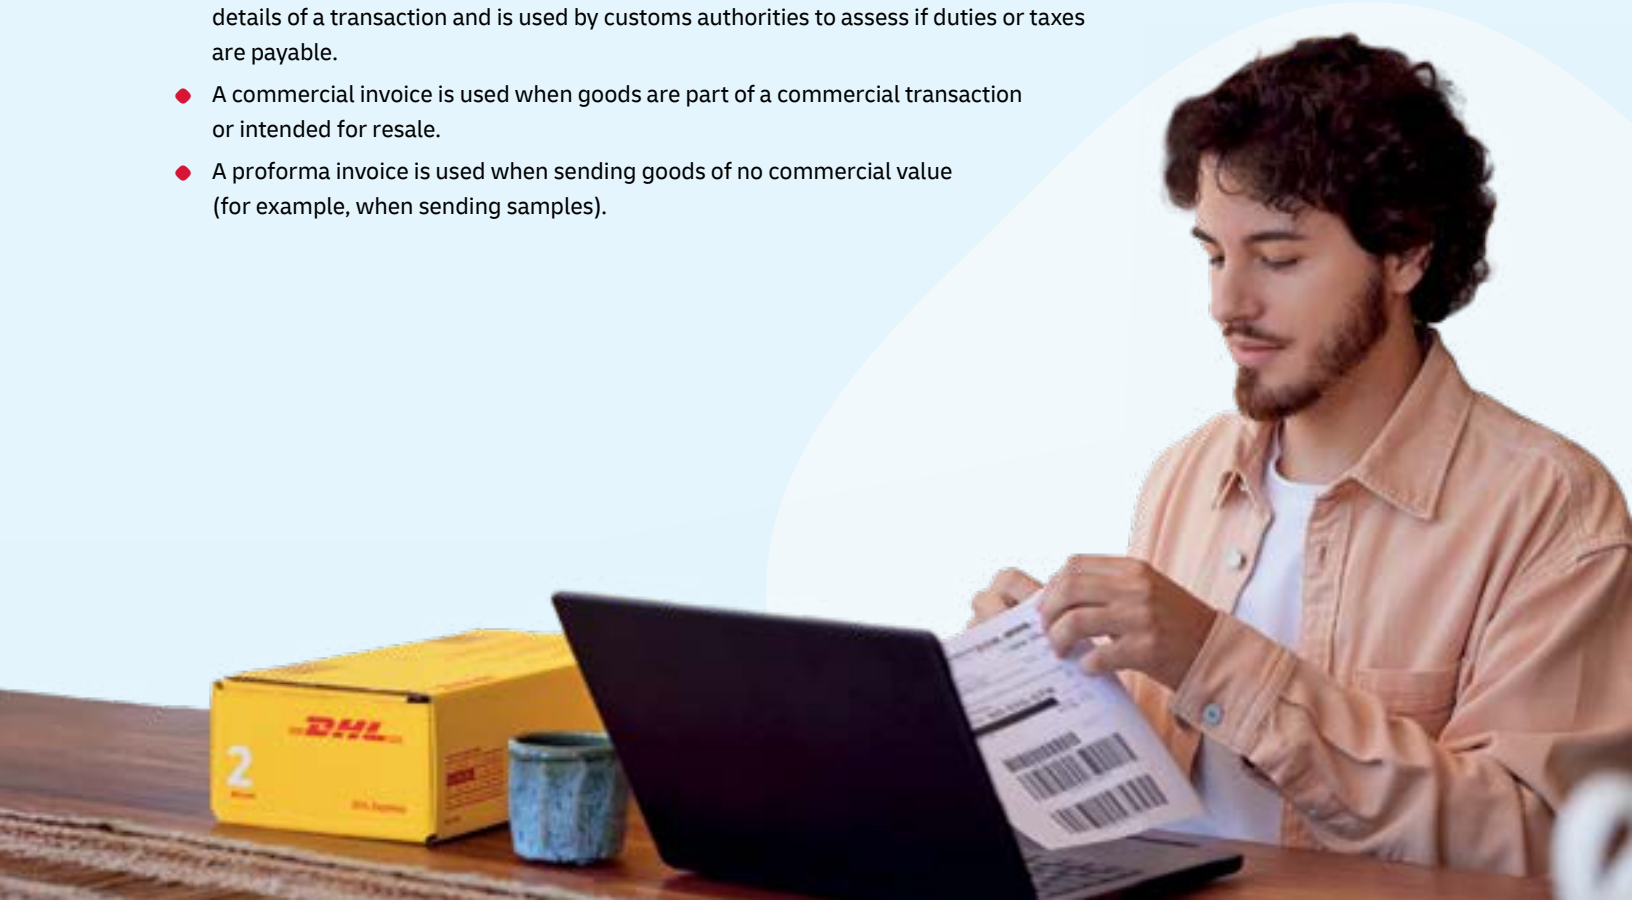

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in inches, then divide the total sum by 139 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

2 Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

3 Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary t place the individual pieces on a pallet unless they excee For example, a shipment comprising four 25kg piece have to be placed on a pallet

All Rates stated here are in USD. Extra charges may apply. Delivery time and availability may vary based upon origin and destination.
The transportation rates displayed above are for informational purposes only, and are not valid until DHL and the above-named customer have signed a Letter of Agreement or other contract.
For shipments over 150 lbs., the rate is calculated by multiplying the total weight by the Zone multiplier rate per pound.
For example, for 200 lbs., if Zone A multiplier rate is $4.83, then $4.83 x 200 = $966.00
DHL Express does not accept shipments exceeding 6,600 lb, or containing pieces exceeding 2,200 lb or 118 inches length, or not meeting DHL standards for packing.
Refer to Packing Guide on dhl.com. These network restrictions are subject to change with 30 days notice.
